Why should I use Summon?

Last Updated: Feb 18, 2014 08:59AM PST

It's fast. It's easy. It's reliable. Drivers are awesome!

Getting a cab is extraordinarily hard in SF. When calling for a cab, it's hard to say when and if one will arrive. Similarly, drivers aren't sure if someone who they are driving to pick up will be there when they arrive. We take extra care to make sure our drivers are good people and our rides are guaranteed—drivers cannot cancel on you. By doing this, we are trying to rekindle trust between drivers and riders. So by riding with Summon, not only are you getting a reliable ride, you are helping fix transportation for the city as a whole.
